

## Welcome to 3went.com!

### *Service connected disabled veteran status: 100% owned*

3W Enterprises is a full service sandbagging company ready to serve you 24/7. We will fill sandbags on your site, saving you thousands of dollars in shipping costs. We will also store sandbags on our site so they are ready when you need them.

Sandbags are used for:

- Emergency Flood and Water Control
- Hazardous Spill Containment
- Soil Erosion and Fire Control
- Roadway Construction and Barricades
- Military Uses

We have various sizes, colors, and tying techniques available. We also offer quantity discounts!

### About 3W Enterprises:

With the endlessly rising fuel prices and delivery costs, we have come up with a solution that helps our customers.

We have a mobile sandbag machine that can come out to your jobsite or yard and make the sandbags right there. By doing this, you can order more sandbags for stock and save a huge amount of money on delivery charges. We can come out to your site and safely make sandbags at a fast pace utilizing very little space.

Our sandbags are made of woven polypropylene, and can be sealed many different ways, based on your preference. We are here for you, 24 HRs a day, 365 days a year. We are minority owned company, allowing government contractors better compliance with federal, state and local government bid requirements and set-asides.

Road/Highway construction companies are our largest customers. Sandbags are used to support signage as a ballast for barricades and for numerous other construction uses. We offer machine rental, sale of sandbags-empty or filled, delivery of sandbags, if needed, and prompt and courteous service. Our sandbags are available in different colors and sizes. We can fill bags with your desired content — sand, pea gravel, sand salt mix (winter), etc.

does your project -- INSIST on calling Be a flood victim no more, call us before the waters rise. Use our calculator to figure the quantity needed to stop the flood before causing property damage.

Consulting available

We offer a consulting service to villages, cities, towns, other governmental bodies, and companies/corporations interested in preparing a mitigation plan for emergencies, floods etc. Having a plan in place prior to emergencies, will mean the difference between prepared and ready, or unprepared and sorry. 3W Enterprises, LLC offers solutions, not problems. Call now and we can give an assessment of your home, business, city, or whatever.
